The Electronic Clocking System

August 2009

## **Information for all dealers** **Convincing Innovations**

**Today we would like to introduce:**

### **TauRIS kompakt XL Terminal**

- ✦ Illuminated display
- ✦ More robust case than the predecessor
- ✦ Even more reliable
- ✦ The successor model of the world wide proven TauRIS kompakt+

### **TauRIS High Speed Sensors**

- ✦ High Speed clocking, i. e. faster
- ✦ Able to read the TauRIS Hitag S ring
- ✦ Sensors for the future which will replace the old ones
- ✦ Optically the same like usual sensor with the same measurements – no need to amend your loft

### **TauRIS Hitag S Rings**

- ✦ New TauRIS ring with Hitag S chip
- ✦ Will be available additionally to the TauRIS 2000 at first
- ✦ Ring for the future which will replace the TauRIS 2000 step by step

### **TauRIS XL Complete Systems**

- ✦ Available as usual
- ✦ Available with brand-new High Speed sensors at only 20 €(gross) surcharge

#### **Our recommendation:**

- ✦ Take the XL system with High Speed sensor already now as upgrades will be needed for the TauRIS Hitag S rings

## **Your TauRIS®-Team**
